Canon

Canon Large Format Printers

Canon offers state-of-the-art large-format printing solutions designed with exceptional speed, flexibility and quality. With three distinct lines of printers; 12-color for the Photography and Graphics markets, 8-color for the Production market and 5-color for the Technical Documents and General Use markets, Canon has a large format solution to fit your needs. Canon includes many technological advances in our printers including a one-inch print head with 15,360 nozzles, an L-COA print processor, as well as workflow printing software. With printers ranging in size from 60-inches down to 17-inches, Canon has the answer.

See which printing system best fits your needs:

- **Canon Technical Printers**

Technically skilled, business savvy. If you're looking to ensure your drawings, documents and presentations are accurate, bold and compelling, search no further than our Technical Documents and General Use printer line, featuring a unique five-color dye/pigment ink set so your prints will stand out and deliver every time.

- **Canon MFP Imaging Systems**

Large-format scan-to-print/file/share solutions
The Canon imagePROGRAF iPF MFP M40 systems are multi-component, multifunction solutions for architects, engineers, construction, GIS, and other professionals who need to scan, edit, save, share, and print large-format documents easily and efficiently.

- **Canon Graphic Arts Printers**

Witness the vibrant colors and outstanding neutral and stable grayscales produced by our line of Graphic Arts printers. Featuring a 12-color pigment ink system using Canon's LUCIA EX ink—for every project you take on from photography to design to proofing.
